

NovaWash™ K

Product Description & Application

NovaWash K is a concentrated additive solution to enhance the effectiveness of kerosene as a wash-up solvent.

Features & Benefits

- Forms a homogenous mixture with kerosene
- Makes kerosene water miscible for easy dispersal
- Reduces the wash-up time by nearly 50% of the kerosene wash time
- Enhances kerosene's cleaning efficiency by removing glaze and water-soluble residue in a single application

Usage Instructions

- **Mixing** : Thoroughly mix 1 litre of NovaWash K in 20 litres of kerosene. The kerosene + NovaWash K mixture works as a water miscible wash-up solvent. To make an emulsion, the kerosene + NovaWash K mixture should be poured into water for improved miscibility.
- **Blankets** : Apply the mixture with a damp cloth or sponge to dilute and remove the ink layer. Remove the residue with a clean damp cloth or sponge. Finish with water application and wipe dry.
- **Inking Rollers** : Apply the mixture from a squeeze bottle to loosen the ink film. Fix the gutter blades and apply the solution pre-mixed with 15 ~ 30% water from a separate squeeze bottle. Cleans ink as well as water-soluble components in a single application. Use of separate squeeze bottles ensures controlled consumption and minimal skin contact.

Storage, Handling & Packaging

- **Storage & Handling** : Protect from direct sunlight. Store at moderate temperatures in a dry, well-ventilated area. Keep the containers tightly closed when not in use. The use of gloves is recommended while handling petroleum hydrocarbon based press washes.
- **Shelf-life** : 12 months from the date of manufacture
- **Packing** : 1 litre
- **Precautions** : Keep away from sources of heat, sparks, open flames and static electricity charges. Post wash-up application of plain water is recommended as a finishing step for complete removal of the residue. Unattended build-up of residue over a prolonged duration could cause ink transfer problems. Not recommended for use on plates.

Our Planet is our most vital resource. We must do all we can to preserve it. We at TechNova have embarked on a “Go Green” mission. Our objectives are :

- To promote Green awareness within TechNova, with our stakeholders and within the Indian printing industry.
- To develop, manufacture and supply eco-friendly Green products and services that have the least impact on the environment.
- To comply with, and go beyond, all applicable legal requirements with regard to the environment, and help our customers achieve the same.

To assist the printing industry to “Go Green”, TechNova has introduced a bouquet of Green products :

- Chem-free Digital Plates
- Process-free Inkjet CtP Solutions
- Alcohol-free & Alcohol-reducing Founts
- Aromatic-free Press Washes
- VOC-free Cleaners & Deglazers

All Product Information Capsules for TechNova’s Green products carry the “Go Green” symbol.

Corporate Profile

- Since inception in 1971, TechNova has introduced several new breakthrough technologies.
- Recognised as one of the world’s leading manufacturers of imaging products.
- Markets products to over 51 countries through its overseas offices and distribution network.
- Serves various industries such as print & publishing, packaging, textiles, engineering, signage, advertising, geology, photography, business graphics and medical diagnostics.

Product Portfolio

- Thermal CtP Systems
- Violet CtP Systems
- Inkjet CtP Systems
- Digital & Analog Plates
- Flexo Plates
- Graphic Art Films
- Graphic Chemistry
- Diazo Chemistry
- Offset Printing Blankets
- Inkjet & Laser Media
- Diazo Media
- Screen Print Solutions

Highlights

- India’s only and world’s 4th largest manufacturer of digital printing plates.
- Long term technical collaboration with Agfa Graphics.
- Only company outside of North America, Europe and Japan to receive the coveted GATF InterTech Technology Award.
- Recipient of the Davos-based World Economic Forum’s “Top-performing, Global Growth Company Award” in 1997 and “Technology Pioneer Award” in 2000.
